

PARAMEDIC REFRESHER

The National Registry requires 48 hours of continuing education in specific areas every two years. This Paramedic Refresher Course, combined with a current ACLS provider card, will meet those requirements. It will also satisfy state licensing and local accreditation CEUs in a convenient and comprehensive manner. Participants with 100% program attendance will receive a course completion certificate from the UCLA Center for Prehospital Care.

The course is designed for:

- **PARAMEDICS** who need to renew their National Registry certification, California State Paramedic license, and/or local county accreditation
- **RN's or MICNs** who need CEUs specifically focusing on the prehospital and field setting
- **Previously** California State licensed Paramedics or lapsed National Registry EMT-Ps who are in the process of reactivating their Paramedic status and need a refresher course in order to take the National Registry examination

Participants who attend the entire refresher course will be issued a certificate suitable for National Registry documentation. *State of California continuing education credit has been approved for 32 hours of Instructor lead credit.*

Note: This course does not provide competencies in any skills area, nor does it provide a Physician's Medical Director signature. To complete your NREMT-P re-registration, you will have to have your provider agency's Medical Director verify your competencies and sign your recertification form."

Course objectives available upon request.

Upcoming Course
